

I heard that you may give low power FM stations priority over current FM translator service. I listen to the K-Love station regularly and don't want to not be able to get it if you do this. K-Love serves me as a resident of the local community by letting me know what is going on in my area and helps me stay centered with my faith journey. If I have a problem I can always contact them for prayer. I think if K-Love were replaced by a LPFM broadcaster providing other programming would hurt my community as well as others. Everyone that listens to K-Love is in love with the Lord and it helps them stay centered. Also when non-Christians listen they call for help and get saved. The service provided by K-Love is in the public interest for not only adults but our children as well. We know that this is a station that we don't have to worry about what they are going to say that we don't want our children to hear. This is a family station. When people are feeling bad and going through tough times the music on K-Love just helps bring them through their problems and makes them feel good. Also these wonderful artists wouldn't have such a good station to play their music and that it will be heard by millions of people. I love the fact that when I am traveling almost anywhere I go I can pick up a K-Love station. Please don't let us lose our K-Love stations. They are very important to us.
